

The Mighty Bay Tree

The sap has come up from my roots to stay, sayeth the mighty Bay Tree. There will be no more winters for me, for I shall keep my leaves as a shelter for my friends and children. I display my leaves as a sign to all, that the King is come, and so I reverse the cycle of yearly life and death. I do this because my King has spoken.

Now my friends and children shall see my leaves year round, for I have accepted this word. I shall never again be naked but will always show my beauty and my love in my King. I am not only a mighty bay tree, but I find I am THE MIGHTY BAY TREE because we are ONE. Even the shade I provide is my King.

Come unto Me my dear children and friends. Lay your head against Me and rest under the shade. As you feel My love for you, know you are whole for the King is Here.

Do you feel it? Here is life in Me. It is His Majesty, up from the grave, into My roots and spread into My glorious leaves. I majestically show My new life as a sign of this wonderful awakening.

Hear oh earth, hear oh earth, at the sound of My word. I'm a new tree now, and I spread My branches upon the earth.

Remember, I said. I have reversed the cycle. My winters have past and spring has come to stay. (Thanks Bob) Sleep has departed from Me and I am planted in the King in the eternal light of day.

I will cover you with My shade, and recognize that your leaves also will never fall. Your leaves are crisp, shining and new; eternally young and fresh. They will not join their elder brothers in the earth.

Beloved Readers: Listen intently and hear that the trumpet is sounding, "The curse is reversed. The Daystar is risen, and shines on the mighty ; His own.

Draw near to one another, for within each is life. This life awaits "someone to care." It awaits "someone to share." This life is multiplied immeasurably as you accept your friend as your brother and your enemy as your friend. This life is in you to give away and is in all to receive. All of mankind will recognize the glory of life in The Lord Jesus Christ. Amen
